

500K HEADSET

Congratulations on your purchase of the 500K Headset. The 500K Headset provides the ultimate in comfort, clarity, and reliability. Featuring a durable build and a lightweight acoustic coil earpiece adapted from the headsets used by Secret Service agents, the 500K sets a new performance standard for mobile headset communication.

The 500K system consists of the acoustic coil earpiece, PTT, acoustic coil length adaptor, left and right contour earpieces, and an optional canal tip earpiece.

You must register your product to be eligible for warranty service. To register online, please visit the IASUS Concepts website at www.iasus-concepts.com/registration.html. To receive warranty service, you will need to provide a copy of your dated sales receipt to confirm warranty status. Please retain the original for your records.

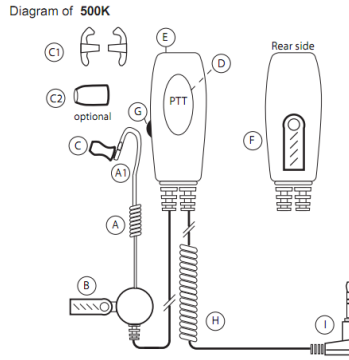

You can also choose to use a contour earpiece (C1) or a canal tip earpiece (C2). These earpieces will form to the shape of your ear allowing for better fit and greater comfort. In order to use these earpieces, simply remove the silicon earpiece (C) and replace with the contour or canal tip earpiece.

To begin using your 500K, select which ear you prefer to wear it on. If desired, attach the left or right contour earpiece. Place the acoustic coil ear wrap (A1) over your ear and insert the earpiece into your ear. The earpiece should fit snugly. Attach the clip (B) to the back of your clothing. Many prefer to attach it on the back of the collar.

The PTT switch (D) attaches using the clip (F) to your preferred position. It should be positioned with the microphone hole (E) facing your mouth.

The coiled wire (H) should fall from the answer/end call button and drape close to your body. The coiled wire can be worn underneath clothing for added discretion. Finally, the adaptor (I) attached to the answer/end call button should be plugged into the headset jack of your communication device.

GETTING STARTED

- A, A1 Acoustic coil and ear wrap
- B Speaker and clip
- C Acoustic coil earpiece
- C1 Contour earpieces (ear-specific, marked L & R)
- C2 Canal tip earpiece
- D PTT switch (Answer/end call button)
- E Microphone
- F PTT clip
- G Volume dial
- H Coiled wire
- I Adaptor (plugs into headset jack of device)

USE AND CARE

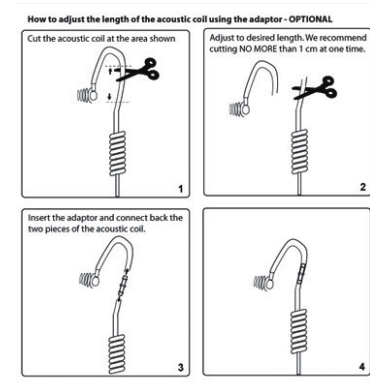

Mobile phones: To answer a call, simply press the answer/end call button once. To hang up a call, press the answer/end call button again. There is no need to speak loudly, as the microphone is sensitive enough to pick up your normal speaking voice. To pause or play audio, press the answer/end call button once. To skip tracks, double click the button. The volume can be adjusted by turning volume dial (G).

It is dangerous to operate a vehicle while using a mobile phone. Please follow local regulations on driving and cell phone use.

Two-way radios: To connect to your radio and begin communications, push and hold the PTT (D) button while you speak. When you are finished speaking, release the button to end transmission. You DO NOT need to press the PTT to receive incoming communications. There is no need to speak at high volumes as the microphone is sensitive enough to pick up your normal speaking voice. The volume can be adjusted with the volume dial (G).

SETTING UP THE 500K

Before using the 500K, you may need to adjust the length of the acoustic coil. To do so, simply use a pair of pliers to unscrew the earphone speaker and the acoustic coil (B) and take out the coil. Using a pair of scissors, cut the coil to the desired length. We recommend cutting no more than 1cm at a time. Insert the metal adaptor and connect the two piece of the coil. Then, push the coil back into the screw mouth and screw the coil back into the speaker base.

Note: Please check the acoustic coil is to your desired length before cutting.

TROUBLESHOOTING

Problem	Check to make sure that...
No sound	<ul style="list-style-type: none"> ... the communication device is on and functioning properly. ... the volume dial on the PTT is not set too low. ... the plug into your device is fully inserted.
PTT doesn't work	<ul style="list-style-type: none"> ... the PTT button is being fully depressed. ... the plug into your device is fully inserted ... your phone is powered on and functioning properly. ... the 500K is compatible with your radio or phone. For more compatibility information, check with your IASUS Concepts dealer or visit the IASUS Concepts website.
PTT won't control music playback	<ul style="list-style-type: none"> ... your phone is on and functioning properly. ... you have selected the music playback application on your phone and it is working properly. ... the adaptor plug is fully inserted into your phone's jack.

2-YEAR LIMITED WARRANTY

IASUS Concepts Limited warrants that the 500K Headset sold by IASUS Concepts or its authorized agents is free from defects in materials and workmanship under normal use for one year. This warranty is only applicable to the original purchaser in possession of a dated sales document receipt that includes the name of the company from which it was purchased. This warranty is in lieu of and excludes all other warranties, expressed or implied, including any implied warranty of merchantability or fitness, and of any other obligation on the part of IASUS Concepts Limited.

WHAT THIS WARRANTY DOES NOT COVER

- Damage from improper operation, misuse, neglect such as dropping the product onto hard surfaces, contact with extreme humidity or heat, or acts of nature (lightning, floods, power surges etc.).
- Products that may have been tested, adjusted, installed, maintained, repaired or altered in any way by persons not expressly approved by IASUS Concepts Limited.
- Cords that are stretched, burned, torn, or cut.
- Products purchased more than 12 months previous to the current date.
- Products that are not accompanied by a valid proof of purchase.

TO REGISTER FOR YOUR WARRANTY

You must register your product to receive warranty service. To do so and to view detailed information about our warranty service, please visit <http://www.iasus-concepts.com/nt/support.htm>.

TO GET WARRANTY SERVICE FROM IASUS CONCEPTS

Please contact our customer service department via our website. Once you have done so, you will receive instructions on how to ship the products to IASUS Concepts or to one of our designated service centers. If instructed to ship the product, you must ship it with freight, duties, and insurance prepaid. Regardless of where you are instructed to ship your product, you must include:

- A copy of your dated sales document receipt.
- A fully completed Return Materials Authorization (RMA) form. You can download a copy of the RMA on the IASUS Concepts website.
- Payment for any services or repairs not covered by the warranty. This will have been predetermined with your customer service representative.

LEGAL INFORMATION

There is no informal dispute settlement mechanism available. This warranty gives you specific legal rights, and you may also have other rights, which vary geographically. Some areas do not allow limitations on how long an implied warranty lasts and/or do not allow the exclusions or limitations or consequential damages. If this is true for your area, the above limitations or exclusions may not apply to you. IASUS Concepts shall not be liable for any special or consequential damages or for loss or expense directly or indirectly arising from use of the product, inability to use the product in combination with other equipment, or from any other cause. IASUS Concepts reserves the right to make changes in the design of the product and to make additions or improvements to it without incurring any obligation to modify any products previously sold.
